DETAILED ACTION

Allowable Subject Matter

1. Claims 1-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:
Claims 1-30 have been found to be novel and inventive because prior art, in particular Larson, US Patent No. 6,742,386 and McGhee, US Patent No. 5,505,080 do not teach all elements of the applicant's invention.

Regarding the broadest claim in scope, claim 1:

A chamber that is attached to a wheel of a truck to rotate therewith and carrying a wire coil which is mounted on a core having two outside parallel arms provided with end faces and the pendulum carrying a series of magnets of opposite polarity. The arrangement of the magnets being that on relative rotation of the chamber and the pendulum, the magnets will pass the end faces of the coil in adjacent relationship, and that when one magnet is adjacent one end face of the coil, another magnet of opposite polarity is adjacent the other end face of the coil. This limitation in combination with all other listed limitations of claim 1 are not disclosed or suggested in the prior art.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
